

SANTE CARIBE WELLNESS CENTER

Nevis and St. Kitts

At Sante Caribe, we treat the *PERSON*, not the *DISEASE*.

Sante Caribe is a ***cutting edge, health and wellness center*** located on the beautiful islands of Nevis and St. Kitts in the Caribbean.

At Sante Caribe, we treat the PERSON, not the DISEASE.

We take pride in offering only:

- non-toxic,
- holistic, and
- highly effective programs for most chronic and degenerative conditions

Some of the diseases we treat:

- Cancer
- Cardio-Vascular Disease
- Diabetes
- ALS, CFS, MS
- Kidney Disease
- Liver Disease

At Sante Caribe, we treat the PERSON, not the DISEASE.

More diseases we treat:

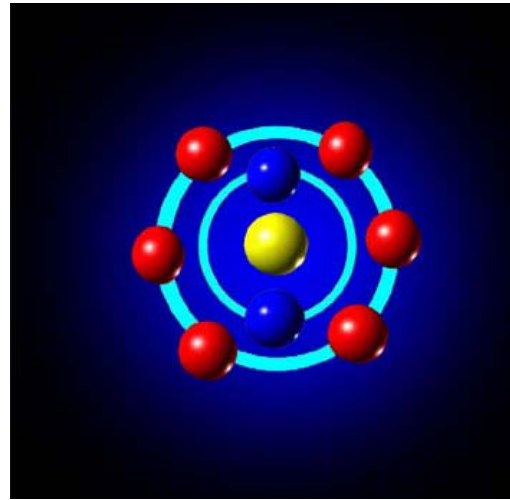

- Hepatitis
- Arthritis
- Parkinson's Disease
- COPD
- Emphysema
- Crohn's Disease
- And more

No Surgery, Chemo or Radiation here!

Sante Caribe offers cutting edge, non-toxic treatment modalities *for people not satisfied* with conventional surgery, radiation and chemotherapy treatments.

Our solutions are simple because the problem is simple:

“Cancer can not exist in a high oxygen environment”

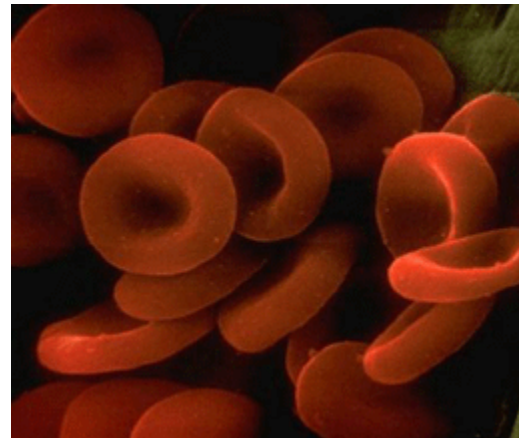

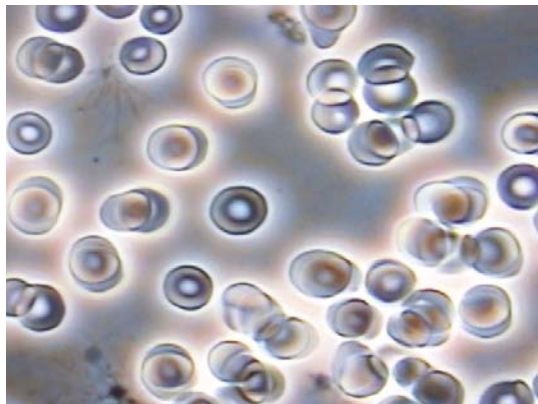

Programs

Live Blood Analysis

Sante Caribe offers **Live Blood Analysis**. This exciting technology involves the viewing of freshly drawn blood under 1000X magnification. This incredible tool can educate and motivate the patient.

Just one drop of blood from the finger can unveil a startling world of red blood cells, white blood cells, microbes, exogenous and indigenous pathogens as well as clues to the overall condition of the patient. This is an unrivaled tool in diagnostic technology.

OZONE/OXYGEN

Almost all chronic and degenerative illness is caused by one factor:
oxygen deficiency at the cellular level.

By flooding the body with reactive oxygen in the form of ozone, we can safely and quickly stop the process of fermentation, also known as cancer.

Cancer can not exist in a high oxygen environment. People suffering from a chronic or degenerative illness are without question deficient in oxygen.

Our well trained staff administers Ozone in many safe and effective methods including Direct Injection, I.V. Diffusion, Rectal and Vaginal Insufflation, Inhalation, Ozone sauna, Ozonated water, etc.

Cesium / High PH Therapy

Sante Caribe provides Cesium/High PH Therapy. Cesium is the most *ALKALINE* mineral and one of only three minerals that can penetrate the cancer cell. Cesium enters the cancer cell and quickly drives the PH up to 9, killing cancer quickly and without toxicity, pain or permanent injury. Cesium is also a very effective pain reliever and most cancer patients will not require toxic pain medication once they start the Cesium program.

Chelation

Chelation involves the safe removal of toxic elements like Mercury, Lead, Arsenic, Antimony and Uranium from the body using EDTA. EDTA is a safe and effective synthetic amino acid that cannot be metabolized by the body. Removing these dangerous elements can greatly decrease the risk of stroke, heart attack, cancer and other problems. Removing these elements can also assist in expediting the healing of someone who is already ill.

DETOXIFICATION

Enzymatic Therapy

Enzymes have the ability to digest and destroy cancer and to aid in the reduction of fibrin around the tumor mass. Enzymes can also boost the immune system and enhance the circulatory system.

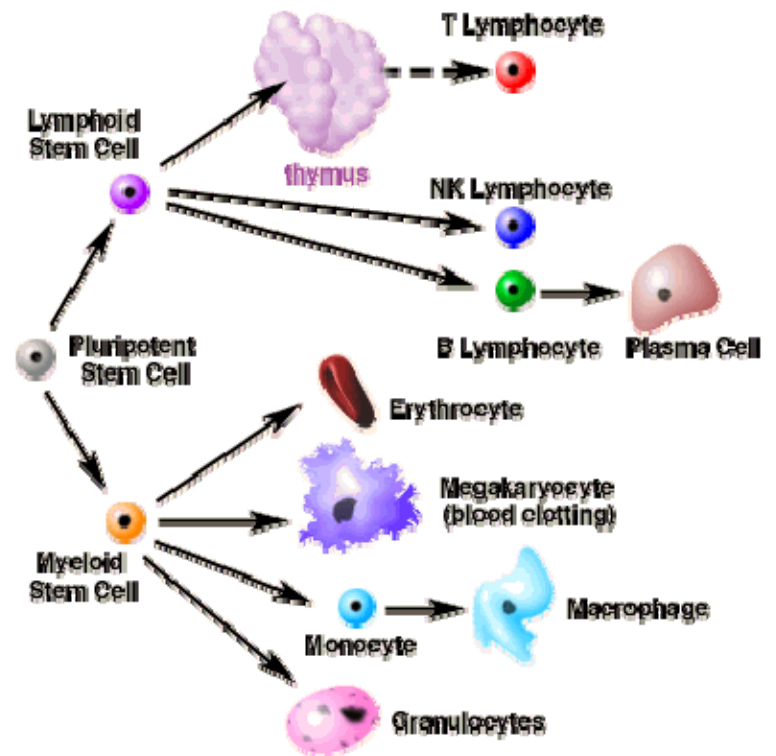

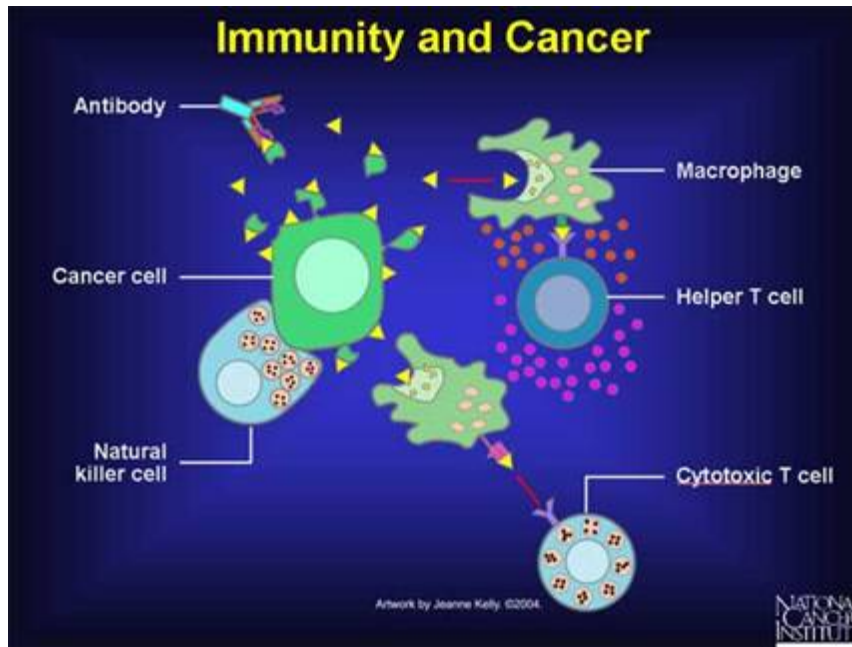

Sante Caribe provides **custom formulated enzymes** to address cancer specifically.

DETOXIFICATION

Immuno Therapy

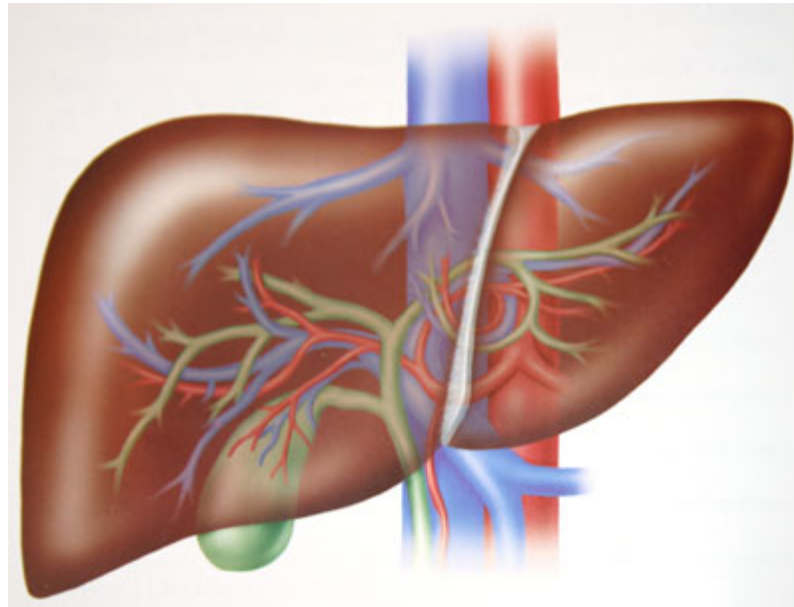

Sante Caribe offers many powerful immune boosting substances to rebuild and maintain a healthy immune system.

DETOXIFICATION

Liver Detoxification

Detoxification of the liver is crucial to overcoming Cancer. We provide an aggressive program to clean and restore the liver and other eliminative organs.

Hair Mineral Analysis

A small sample of hair is sent to one of our laboratory partners for mineral analysis. We can determine from these results the amount of potentially toxic heavy metals like Arsenic, Lead, Cadmium, Antimony, Mercury, Uranium and others that are in the patient's body. We can also determine the amount of nutritional elements that are present like Calcium, Magnesium, Zinc, Iron, and Copper, etc.

Stool Analysis

Stool samples are sent to our partner laboratory. The results are used to screen for Parasite infestation, Dysbiosis, Bacterial imbalance, Assimilation problems, etc.

Massage Therapy

Massage Therapy, as a non-invasive, holistic approach to maintain the body's natural functions, is an essential component of the wellness continuum.

Direct and indirect manipulation of the body supports general physical and emotional well-being.

Massage Therapy promotes an extensive range of benefits, which includes increasing circulation.

Our nutritional program is built on extensive research based on the work of Dr. Weston A. Price, The Price-Pottinger Foundation, Paolo Airola, Aajonus Vonderplanitz and others.

- Our programs consist primarily of raw protein from locally caught fish and shellfish, locally raised beef and lamb, locally raised chicken and eggs, locally produced goat's milk, locally grown vegetables and fruits.
- We use very little carbohydrates and starches and no refined sugar or artificial sweeteners. We use coconut oil, olive oil and real butter or palm oil.

A few selections from our delicious menu:

- Conch salad, Carpaccio, Yellowfin Tuna Ceviche, Lightly seared Mahi Mahi, Swordfish, Sawfish, Shark, Steak Tartar, Broiled Lobster, Raw Oysters, Mango Salad, Minced Lamb

**Most of our modalities can be administered to you
in the privacy of your own suite.**

- Our ozone generators are portable, so we bring the treatments to you.
- You will have time to go down to the beach and get plenty of sunshine while enjoying our many beach activities.
- Meals can be served in your room or in the main dining room.
- Lectures on treatments and modalities used at our center will be conducted several times per week in the conference room.

Activities

Sante Caribe is a full service wellness center as well as a top Caribbean resort destination. In addition to the wellness center services, we offer many outdoor activities for the entire family and casino gambling for adults.

Our Casino Games include:

- Texas Hold'em
 - Black Jack
 - Roulette
 - Caribbean Stud Poker
 - Let It Ride Poker
 - Three Card Poker
 - Craps
- Over 100 slot machines

OUR PEOPLE

BACKGROUND ON PRINCIPAL DIRECTORS

Director of Operations

Dr. Richard Santee, N.D., C.N.M.

Dr. Santee was a Charter member of the World Cancer Organization
Founded by pioneering Cancer researcher Dr. Carson Pierce N.D.,
M.P.H.

Dr. Santee received an N.D. From Pierce Naturopathic College and is a
Certified Nutritional Microscopist.

Dr. Santee is an internationally recognized expert in
Live Blood Analysis and Cesium therapy.

Dr. Santee had a private practice in Los Angeles for ten years.
Dr. Santee is the last living descendant
of a lineage of Kahuna appointed to
The Royal Court of The Kingdom of Hawaii.

Advisory Board

Dr. Alan Schwartz, M.D.

Specialty: Family Practice: Complementary/Integrative Medicine

Business: Owner/Medical Director, Holistic Resource Center
Agoura Hills, CA 92020, (818) 597-0966

Board Certification: Pediatrics: 1973-2007

Special Interests and Skills: Nutrition, Preventive Medicine, Herbal Medicine, Allergy, ADHD, Natural Remedies, Autism, Hormonal Regulation, Lecturing, Writing, Chelation and IV Nutritional Therapies

Education: University: Cornell University, Ithaca, N.Y.; 1960 – 1964,

Degree: BA in Chemistry

Medical School : S.U.N.Y. Downstate Medical Center; 1964-May, 1968.

Degree: M.D.

Internship : Children's Hospital of the east Bay; Oakland, CA; 1968-1969.

Pediatric Internship

Diplomat, National Board of Medical Examiners ; July 1, 1969.

Dr. Charles Morris, N.D.

Specialty: Cancer, Diabetes, Cholesterol, Hypertension, ADHD, Healing Touch/Reiki/Imagery & Visualization, Complementary/Integrative Medicine

Special Interests and Skills: Metabolic Typing, Nutrition, Preventive Medicine, Herbal & Homeopathic Medicine, Natural Remedies, Chelation, and guiding people to make the dietary, lifestyle and spiritual changes necessary to aid their bodies in getting well

Dr. Morris healed himself of lung cancer (a 3 1/2 inch tumor in his right lung, along with severe pneumonia that conventional doctors could not cure after giving me combinations of the strongest antibiotics available for over 2 months) with natural methods, including imagery, visualization, Reiki, diet and lifestyle changes, metabolic typing (very important), along with supplements, enzymes and herbs, and has healed himself and others of various diseases, infections and illnesses using natural methods.

Dr. Morris received a Doctor of Medicine In Alternative Medicines - M.D.(A.M.) from The Indian Board of Alternative Medicines, and the following certifications and diplomas from Trinity College of Natural Health: Certified Health Specialist (CHS), Certificate in Nutritional Counseling (CNC), Master Herbalist (MH), Doctor of Naturopathy (ND) and Doctor of Naturopathic Ministry (DNM)
